

CERT IV COURSE DURATION BREAK DOWN

The course runs for 20 days with 6 modules. The great thing is that you do not need to attend 20 days consecutively. We understand that schedules can be busy, so you have the flexibility to complete each module based on your availability and our scheduled intakes.

For example, you may complete:

Module 1: Introduction to Training from 8–10 April, and
Module 2 at a later date (e.g. 8–9 June), depending on what works best for you.

The full course fee is \$1,700, and upon successful completion of all six modules, you will be awarded the Certificate IV in Training and Assessment.

You also have the option to enrol in individual modules only, if you prefer not to complete the full qualification at this stage.
